

PERSONNELStudent Teachers

The following policy serves as a guideline for the implementation of the student teacher program:

1. The school division will accept student teachers only from accredited institutions.
2. All student teachers shall meet the health requirements of the sending institution.
3. The school administration will determine the maximum number of student teachers which can be accepted effectively into the schools during a given academic year. The superintendent or designee shall have responsibility for the assignment and placement of student teachers within the school system.
4. Student teachers will be under the administrative direction of the principal of the school to which they are assigned.
5. The school administration will select as cooperating teachers those staff members who are professionally qualified and who have demonstrated superior techniques.
6. The cooperating teacher will be legally and professionally responsible for the scholastic and personal welfare of the students in the class.

Adopted by School Board: March 12, 1991
Amended by School Board: August 26, 1997
